Agricultural Pests.

The annual competition for the
destruction of agricultural pests
is once more announced by the
Provincial Dept. of Agriculture.
The competitions cover the destruction of crows, gophers, magpies.

Mr. A. Yuill

Will Deliver a Lecture in
the Town Hall, at
3 P. M., on

SUNDAY NEXT, MAY the 14th,

Under the auspices of the
Watchtower Bible and
Tract Society.

Adm. Free. No Collection.

Whist Drive Winners.

Stony Plain Junior basketball players held their first whist drive in the town hall on Friday evening and was fairly well patronised by the friends of the members of the club. About twoscore were present, and had a very enjoyable time. The following were the winners—
Men's 1st, Chas. Wudel
Ladies' 1st, Mrs Michael and Mrs L. M. Larson, equal.
On the draw Mrs Larson won
Men's 2d, Mrs Callahan
Ladies' 2d, Annie Wudel.
A dainty lunch was served at the close of the play.

S. P. H. Athletics.

A meeting of basketball players was held last week at the home of Miss Anna Miller, when the following were elected as officers for this season—

Pres., Miss E Fischer
Capt., Miss I Zucht
Coach, H T Trapp
Field Coach, M Zucht

Following are the players:
Misses M Campbell, F Willie, C Pailer, I Zucht, E Fischer, A Miller, A K Miller, Esther Dannhauer, E Goertz, Tillie Goertz

At this meeting the subject of suits for the players was discussed. It was arranged to have these procured. Black and white was chosen as the color for the suits.

The name of the team is Stony Plain High.

The New Insurance Act.

The amending act to the Alberta Insurance Act, passed at the last session of the Legislature, will be proclaimed on Thursday, June 1st. The new Act provides for greater measures of security for the passengers in automobiles.

The Act provides, further, that every owner's policy shall insure the person named therein and every other person who with the consent of the owner uses the automobile and one which declares that any person insured by, but not named in a policy, may recover indemnity in the same manner and to the same extent as if named therein as the insured.

Another amendment confers upon the person injured thru the negligent operation of an auto in respect of which there is a policy of automobile insurance an incontestible right upon getting a judgment against the insured, to have the money payable under the policy applied upon his judgment.

When the Legislature passed the Act it left the date upon which it would come into force open to the Government, and it has been decided to proclaim it on the date stated.

Remember the sale in Stony Plain on Saturday next, May 13th, of stock and miscellaneous articles.

World Co-operation In Prospect

Events of the past few weeks have concentrated attention on the interdependence of the nations of the world, and, by their promise of a general attack on a world scale upon the major problems of the hour, have injected new hope in suffering humanity that at last a serious effort is being made to cure the ills which have prostrated the world economic system. Conferences of leading statesmen at Washington, definite assurance that the world economic conference will be held in London next month, the prospect that solution will be found in reciprocal tariff arrangements and adoption of an international monetary unit, have had immediate beneficial effect in the markets of the world, and appear to have restored some of the confidence lost in the crash of 1929 and the bitter years since.

Canada, in particular, faces the task of committing its new crop to the fertile soil with a more optimistic and a higher courage. Assurance from Washington and Ottawa of reciprocal agreements in the offing that will tend to reopen channels of trade long made barred and unproductive by prohibitive tariff barriers, have produced a most welcome reaction in the Prairie West. Conjoined with this looms possibility of an easing of the general trade situation in Continental Europe where Canadian wheat has found continually increasing obstacles to overcome—obstacles created by local fears and narrow prejudices. The movement toward world co-operation based on the fact that the harshest of conditions as will make effectively beneficial the Empire trade agreements consummated at Ottawa, last year. With these auspicious circumstances encouraging him, no wonder the Prairie Farmer sows higher hopes with his seed this year!

The idea that an international problem can only be tackled successfully in an international way, was long in penetrating the minds of many world statesmen. This may have been due to the fact that statesmen are proverbially hesitant of moving in advance of public opinion—and it is also the fact that public opinion, since the war, nurtured on fears and despondencies, has been notoriously nationalistic in sentiment in virtually every civilized country. In consequence, the nations have sparred defensively to evade disarmament, despite the general abhorrence of war; and have erected tariff barriers in the futile hope of developing self-contained national economies, despite the fact that a customs port may be more provocative than a concrete fort. The resultant stimulation of animosities has tended to retard concerted action upon the economic problems; but the strangulation of world trade with its accompaniment of widespread unemployment and almost universal suffering, has finally served to awaken general recognition of the essential interdependence of nations, and recognition of the fact that the sure path to recovery lies through co-operation. Even France, with all her hoards of gold, has been forced recently to borrow \$500,000,000 from England to buttress the franc, demonstrating that in this day and generation no country is so organized as to be able to live of itself alone.

Generally speaking, therefore, it may be said that the world at last has become internationally-minded; and that is a sign that common-sense is reasserting itself. In Germany alone would there appear to be a reactionary movement towards a narrower nationalism, but the movement in Germany is capable of a dual interpretation. It may be true that Herr Hitler and his Nazi army have resurrected some of the more subversive characteristics of Prussian "junkers" in their so-called "bloodless revolution"; but it is also true that Herr Hitler has evinced a willingness to negotiate with other nations of the world not only in matters of trade and commerce but also in matters of armaments. The new Germany, therefore, while driven along internally in a narrow nationalistic regimentation by men imbued with the "administrative ideas of a sergeant-major" (as Guedella would say), is awake to the necessity of co-operation in the wider field of world politics and trade in the interests of world peace and world prosperity. That is to say, the rigors of the Nazi discipline would appear to be fundamentally protective of the German commonwealth against the peril within the gates rather than that aimed at any imaginary peril from without. In any case, the German internal situation does not necessarily impair prospects of a successful solution of the world economic problem, nor weaken hopes of a reintegration of normal trade relations among the countries of the world.

Blame the Translator

British Authority Says Cinderella's Slippers Were Fur and Not Glass

Cinderella's slippers, popularly supposed to have been made of glass, really were made of fur, according to Sir Gerald Wollaston, garter king-of-arms and an authority on heraldry. He told members of the Royal Society of Arts that the slipper was made of "vair," which is heraldic fur of white and blue. The other idea, he said, came from a confusion with the French "verre," meaning glass.

The Netherlands may restrict planted areas for agriculture.

Hold Meetings By Telephone

Post Office In London, England, Gives Unique Service

So that business men in widely separated towns can hold a joint conference without travelling, the general post office in London, England, has arranged for simultaneous telephone connection.

The matter is arranged simply by informing the post office that certain specified people in, say, London, Manchester, Leeds and Glasgow are required at a definite time. The general post office links them up and they can then each hear the voices of all the others and do their business as though they all sat in one room.

Nervous—Could Not Sleep Tired Out All The Time

Mrs. George Schirmer, Nanawagan, N.B., writes:—"I was so very nervous I could not sleep at night, and felt tired out all the time."

A neighbor told me about Milburn's Heart and Nerve Pills, and as she was using them at the time she gave me some to try. I found they were doing me so much good I prepared two boxes and they proved of wonderful help to me."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Impressed By Visit

British Vice-Admiral Francis Account of Trip To Canada
Vice-Admiral Francis Wade Caulfield gives a breezy account of a six-week's visit to Canada in his report as president of the association of retired naval officers.

"A small property near Vancouver was recently turned over to me. As Affairs connected with this property or settlement (called 'Caulfield' after my father, who bought it as a virgin forest and started to develop it at the end of the last century) necessitated a trip through Canada to the Pacific coast, and so, incidentally, gave me the opportunity of meeting A.R.N.O. members of whom, in September, there were 24 scattered between Nova Scotia and Alaska. It was a strenuous, but splendid six weeks. The welcome given me everywhere was something not to be forgotten, and I should like to take this opportunity of once again thanking my various hosts and hostesses for their charming hospitality and the truly delightful and extraordinarily interesting time they gave me.

"One member (working on a farm for his nephew, an unsold degree) was pitching corn, another was running a ferry, another was perched on top of a sort of Eiffel Tower as fire 'look-out' in the forest area of Ontario. A fourth member owned and worked a 20 acre fruit farm. Appeals! Why the heavens were breaking with their load, and hardly a tree but carried 2,000, some nearly 5,000 apples; whilst a fourth a 'J.P.' in the Rocky Mountains, and friend and counsellor to the whole of his little community, in fact, his word 'went,' and little was done in his district without the knowledge and approval of 'The Commander'.

"Everyone who was dependent on pension or English income was being badly hit, the pound sterling having dropped from \$4.86 to \$3.80 and 'servants' were becoming a luxury. I was amazed, however, to find how comfortable and happy a family can be in a house sans servants, but fitted with labor saving appliances, cheap electricity, and a cheerful and efficient housewife.

House Had Gold Ceiling

Residence Of Former Chicago Bank Director Sold By Auction

The famous house with the 14-carat gold-chilling smoking room, lined with morocco leather—a house so luxuriously furnished it would have done credit to a fabulously wealthy Indian Maharajah—has gone on the auction block at Chicago.

It was the home of Frank A. Mulholland, real estate operator and a former director in the chain of twelve defunct Bain banks, who was indicted with other officials of the financial institutions.

The house, situated in exclusive Beverly Hills, was one of the show places of the section.

The building contains eleven rooms and sold along with it were the costly furnishings which included a beautiful hand-carved antique dining room suite of walnut, and French walnut love seats.

Fast Northern Trip

Constable Travels From Chesterfield To Churchill In Seven Days

From Chesterfield to Churchill, a distance of 425 miles, in seven days is the accomplishment of Constable Norris Yates. This is the shortest time on record. Constable Yates, accompanied only by an Indian guide, travelled by dog team.

The feat of the young constable was accomplished early in April. The trip to Churchill is only made twice a winter to carry mail and necessities. Constable Yates was an escort to a western Canadian scientific explorer for a month last winter and spent that time completely away from civilization, living the life of an Eskimo.

The Explanation

Wife—"Henry, here you are grousing about a few little bills for my hats, stockings, and whatnot. Do you know I could have married M. T. Head, the telephone magnate—and he's a millionaire. But I didn't."

Henry—"Yes, that explains why he's a millionaire."

Need More Cattle Steamers

Western Brokers Claim Only Six Available For Trade

Neglect of the Dominion Government to subsidize ocean tramps to enter the Canadian cattle trade is strongly resented at Winnipeg. Brokers point out that only six tramp steamers are available to this trade, that two British companies have chartered these boats and that the tramp steamer owners some months ago offered to pay half the cost of fitting up the boats to carry cattle if the Dominion Government would pay the other half.

The Dominion Government was silent on this issue. Today, as a consequence, the Canadian cattle export trade is limited only by the capacity of these steamers to carry cattle. They are scheduled to carry 450 each every three weeks to Britain all summer which will mean that a maximum for the year of 45,000 will be exported.

Canada could easily export 100,000 head it is claimed. The cost of fitting a boat is about \$12 per head of cattle capacity. A boat big enough to take 500 head would cost \$6,000. A boat to carry 400 head would cost \$4,800.

Support Land Scheme

Regina To Participate In Provincial Back To The Land Plan

Decision to participate in the provincial government's back to the land scheme was reached by Regina city council recently, although some criticism was directed to two points in the scheme. Protested points were that the cost per family was higher this year than last, and the change of policy of the government this year compared with that in effect last year.

Under this year's scheme the municipality participating in the plan is required to agree to undertake to contribute one-third of the expenditure per family up to \$400 and, further, to assume one-third of an excess expenditure over \$400 but limited to an additional \$200.

Last year the cost to the city per family was \$100 and some aldermen felt those who went out under last year's plan would have ground for objection to an advantage given to those going under this year's plan.

Completes Twelve-Year Task

Priest-Artist's Paintings Adorn Walls Of Gravegrobber Hospital

Magr. Chas. McIlhenny, priest-artist, has completed twelve years' labor in painting religious pictures adorning the walls of Gravegrobber hospital.

His "Way of the Cross," just finished, consists of fourteen life-size paintings placed around the church proper. They are rich in colours, beautiful and of aesthetic value. In addition to beautiful contrasts of colors, symmetry, order, regularity and balancing of ideas are found in his work. They come from the mind of an artist, who has painted the apologetic, dogmatic and moral doctrine of the Christian faith.

Coyotes have special places to meet and sing their weird songs after nightfall, but they never use the same meeting ground two nights in succession.

Dominion Drama Festival

Masquers Club Of Winnipeg Awarded First Place

The Masquers' Club of Winnipeg, is winner of the Dominion drama festival competition, with their play "The Frenchman To Be Hanged," by Richard Hughes. The Winnipeg club received a marking of 83 per cent. of excellence from Rupert Harvey, festival adjudicator.

To the Masquers' Club will be awarded the Beasbrough cup, emblematic of amateur dramatic supremacy in Canada, as well as the special trophy given for the best play in English to be presented during the festival.

As the second best presentation in either English or French Mr. Harvey nominated "Les Rantoux," by Erikman-Chatriac, which "L'Union Dramatique de Quebec Enr. Offered as their entry. This performance received a marking of 80 per cent. of excellence. The Quebec dramatic organization will receive the special trophy awarded for the best play in French, although it is notable that "Les Rantoux" took second position in the whole competition.

The second best English performance during the competition was "Back to Methuselah," by George Bernard Shaw, which the Vancouver Little Theatre Association gave. This presentation received a marking of 79 per cent. from Mr. Harvey. Only Part I of the first act of this play was presented.

Third in the English plays came "Will Shakespeare," by Clemence Dane, presented by the Ottawa Drama League Group B. Its marking was 77 per cent.

In the French plays, "Le Balser Dans la Nuit," presented by Le Cercle Dramatique des Etudiants de Leval, Quebec, was awarded second position. Its percentage was 68. This play is by Maurice Leval.

The third best performance in French was "Une Affair d'Or" (1st act), by Marcel Gerbidon, which Les Anciens du Genie de Montreal presented. It gained 63 per cent. of excellence.

Not So Good

A farmer's son once decided to be a lawyer. His father drove him into town and got him a job as office boy to a law firm. Three days later the young fellow was back home again.

"Well, Josh, how do you like the law?" his father asked.
"Aw, it ain't what it's cracked up to be," said the boy. "I'm sorry I ever learned it."

Federal Government Economies In Reduction Of Expenditures Results In Saving Of \$81,000,000

Reductions in controllable expenditures over the last three years, coupled with the \$14,000,000 provided in the last budget, have resulted in total government economies of \$81,000,000. Hon. E. N. Rhodes, minister of finance stated in a circular letter forwarded to all Canadian Chambers of Commerce and Boards of Trade which recently called upon the federal administration to "set a good example," in matters of economy.

"The government is in cordial sympathy with the objects you have in mind," Mr. Rhodes wrote. He expressed the opinion that all factors of the problem, in respect to government expenditures, had not been considered.

Even if every salary, pension and parliamentary indemnity were cancelled, there would still be a deficit of \$26,000,000,000 in the non-controllable obligations, he wrote.

"Furthermore," the letter proceeded, "may I point out that for two years past, through action of the treasury board, promotions and increases of pay have been held in abeyance, and as vacancies have occurred in the government service the positions have been abolished. These and other restrictions have resulted in a reduction in the total charge for salaries and wages of \$4,500,000 per annum, and a reduction of over 4,000 employees. This is in addition to the saving of \$8,300,000 per annum effected by the 10 per cent. reduction from all salaries and wages.

"In calling for economies, it is erroneously assumed that reductions in controllable expenditure could be made to such an extent as to balance the budget without resort to additional taxation. I submit a few figures in round sums which will indicate the impossibility of such a suggestion.

"Based upon the taxation measures in force prior to the last budget, estimated revenue for the fiscal year 1933-34 is \$287,000,000, our estimated expenditure for the coming year is \$445,000,000, in which are included the following items of uncontrollable expenditure:

Interest charges, \$133,000,000.
Canadian National Railways deficit, \$55,000,000.
Pensions and soldiers' care \$58,000,000.

Subsidies to provinces, \$15,000,000.
Old age pensions, \$12,000,000.
Unemployment relief, \$35,000,000.

"These items are fixed and uncontrollable beyond question with the possible exception of that for unemployment relief, but, having regard to existing conditions in Canada and the inescapable demands which are made upon the Dominion treasury in this connection, this item can, I think, fairly be included. The total of the above items is \$313,000,000.

"It will thus be observed that if we were in a position to eliminate every dollar of so-called controllable expenditure we would still have a deficit of \$26,000,000. That is to say if we were in a position to dismiss approximately 56,000 permanent civil servants (not including casual employees); stop their superannuation payments in breach of contract; pay no indemnities to members of parliament or to senators; pay no judges' salaries; dismiss parliamentary staffs, the mounted police force, all customs officers, lighthouse keepers, harbor masters, etc.; in other words, if the government were to dismiss every civil servant and close all government activities, there would still be a deficit of \$26,000,000.

Building More Active

Construction activity for April was almost equal to the combined totals of January, February and March, according to figures compiled by MacLean Building Reports, Limited. Contracts awarded throughout Canada for April totalled \$8,698,700 as compared with \$3,191,650 in March and similar amounts for January and February.

White horse leather shoes will be vague in Italy this spring.

W. N. U. 1993

Uses Of Wood In Canada

A Considerable Proportion Is Still Used For Fuel Purposes

According to figures compiled by the Forest Service, Department of the Interior, the use of wood for firewood still continues to be one of the main uses of wood in the Dominion; 30.7 per cent. of the wood cut is consumed in this way. The volume of wood that goes to the sawmill is still greater, by almost one-quarter, constituting 33.2 per cent. of the total quantity of wood cut. Third in importance among the uses of wood, in respect of volume of wood used, comes pulpwood; 24.2 per cent. of the consumption of wood goes for this purpose. The quantity of wood utilized for railway ties makes a respectable total; hewn ties make up 3.5 per cent. of the total consumption of wood, and sawn ties 2.23 per cent.—a total of 5.73 per cent. for all ties. Stencils still require a considerable amount of wood—about one and one-half per cent. of the aggregate, and poles, piling, and similar products form one-half of one per cent.

TENDERS RESIGNATION

Hon. J. R. Cooke, chairman of the Ontario Hydro-Electric Power Commission, who has placed his resignation in the hands of Premier Henry. The resignation has not been acted upon.

Reclaiming Zuyder Zee

Work In Holland Will Take Twenty-Five Years

The work of reclaiming Holland's Zuyder Zee will probably require 25 years. V. J. P. de Boer, director of the project, said recently while in London. The new land will ultimately be used for agricultural purposes he said. It will at first be used for pastoral purposes and later turned into crop-growing land.

Approximately 900 persons already live on the reclaimed land, and approximately one-third of the area is under cultivation. Work will be provided for 3,000 persons when the project is completed, Kuffeler said.

The Zuyder Zee is being enclosed by a dam about 20 miles long. Within the enclosure will be embanked "four parts called polders, from which the sea will be pumped. The main dam already has been completed, and the first polder probably will be finished next year.

Decrease In Fish Sales

Catch In North Greater, But Price Lowers Receipts

The value of fresh fish shipped out of The Pas district during the past season was \$33,561, according to the report of E. H. Stevenson, fishing inspector. Last year the amount received by fishermen was \$35,099. The decrease is attributed to the fact that meals and fish of the population districts are so low in price that northern fish, subject to longer freight hauls, and therefore increased overhead, cannot compete with other markets.

The catch per man this year was greater than last year, but the receipts were less owing to low prices.

The total number of pounds shipped this year was \$83,700, as against 920,400 last year. There were 135 licences issued for the season of 1931-32, as against 92 in 1932-33.

Bananas grow on a tall plant which is really an overgrown herb.

Spring Migration Of Birds From The South Heralding Return Of Warmer Weather

Alberta Issues Tourist Book

Shows Beauty and Grandeur Of Famous Holiday Resorts

"Masterpieces of Nature" is the title of a new booklet of photographic reproductions of bits of grandeur in Alberta, issued by the publicity commissioner of the Alberta Government, Colin G. Groff.

There are 15 plates of scenic Alberta in the booklet, bound in an attractive cover of black and gold.

The enchantment of "Waterloo" lakes, the beauty of Banff National Park and the grandeur of Jasper, and a few words about the province itself are shown. The booklet, it states, "may serve to indicate to those of the outside world something of the beauty and the grandeur for which Alberta's holiday resorts are justly famous."

The black and gold color scheme is carried through the booklet, in borders around the photographs. It was printed by the Alberta King's Printer, W. D. McLean.

Leads In Homicide Rate

Murder Is Becoming Ingenious Art In United States

"Murder more than ever is becoming an ingenious art, if not a trade, in the United States, Dr. Frederick B. Hoffman, of New York, statistician, concluded, after a survey of 180 American cities. He found the United States led the civilized nations of the world in the homicide rate for 1932.

Memphis, Tenn., had the highest rate of the 180 cities with 34.24 per 100,000 population, but Dr. Hoffman pointed out that the high rate may be due to admission to Memphis hospitals of cases from outside the city.

A score of the cities surveyed had no homicides in 1932. The rate for the United States was 10.5 per 100,000. Dr. Hoffman compared this with 0.5 in England and Wales.

Experts To Reach Hundred

Seventy-Eight Year Old Texas Man Thrives On Beans

Thomas Jaime, 78, one-time pony express rider and resident of El Paso, Texas, lives on a diet of friole beans and expects to live to be 100 years old.

"And if I reach that age," he declared, "I'm going to celebrate by riding in an aeroplane. I'd like to see how those pilots carry the mail."

Years ago Jaime rode the express trail from Fort Davis, Texas, to Roswell, New Mexico.

London had a fog which was practically continuous from November, 1879, to February, 1880. It was the worst period of fog ever recorded there.

"Of all the myriad voices with which Spring speaks to mankind none is more generally beloved or more widely recognized than the return of the birds. Among our waterfowl the most conspicuous is undoubtedly the Canada goose or "honker." Travelling by day and by night over town as well as country in wedge-shaped flocks led by birds of ripe experience these birds of the wild are strikingly emblematic of spring. A few Canada geese winter in the southern coastal parts of the Dominion such as southern Nova Scotia and south-western British Columbia but most of them spend the winter in some part of the United States. There are large wintering grounds on the coast of the Carolinas, around the gulf of Mexico, and in California. From these areas the geese begin to move northward in February. They do not hurry on their way but pause at various suitable places in the settled regions of Canada in March and April and await the breaking of the icy bonds of the more northerly waters along which they will pass.

In both Canada and the United States these splendid birds, as well as all other waterfowl, perform their spring migration in peace and safety from shooting because of the protection that is afforded at that time of the year by a treaty between the two countries known as the Migratory Birds Convention, the administration of which in Canada is a joint responsibility of the Department of the Interior and the Royal Canadian Mounted Police. Even though the guns are silenced in the spring, the birds have a host of natural difficulties and dangers to meet, such as storms, food scarcity, and drought.

Of course the Canada geese are by no means alone as the feathered harbingers of spring. Pressing eagerly forward to reclaim the land as it is freed from retreating winter are a great host of other birds, both waterfowl, such as ducks and gulls, and song birds or insect-eaters of a great variety. One of the earliest and most familiar of the song birds is the robin, whose joyous carol is sounded from the top of some leafless maple long before the ice and snow have left us. Other early arrivals among land birds are the crow, the various kinds of blackbirds, and the humble song sparrow, whose simple cheerful song is undoubtedly most appreciated in early spring before it is drowned in the chorus of more gifted voices that arrive later.

Although the birds that lead the way are most eagerly welcomed as messengers of spring yet the fact that the northward migration of the life in southern Canada continues to grow like a swelling tide through the month of April and does not reach its height until about the middle of May. Typical and conspicuous birds among these later arrivals are the swallows commonly seen as they circle about overhead in pursuit of their insect prey; the orioles whose gay colours and martial notes bring them to the attention of all; and the bobolinks which fly like madcaps in ecstasy over the greening meadows drenching them with their wonderful songs. Birds such as these, arriving in Canada when the weather has become more settled, generally return on a rather exact schedule arriving about the same time each year. It is interesting to note that the time of their return has a more direct relation to the state of development of vegetation and of insect life in the region than to the man-made calendar and mankind will never cease to wonder at the instinct that brings the bobolink back north from far-away Brazil at just the right time to avoid April snows and starvation on the one hand and to help prevent an undue increase in the numbers of awake insects in the grasslands on the other.

Part Agriculture Plays

Agriculture provides roughly half of Canada's national income, the most important items being grain and grain products, cheese, stock and live stock products (especially meat and hides), potatoes and apples.

GRAND OLD DUKE REVIEWS BRITISH SAILORS

WORLD HAPPENINGS BRIEFLY TOLD

In a fine state of preservation a 70-year-old note of the private banking house of Macarthur and Knowles of Prince Albert, North West Territories, has been found there.

People live to a ripe old age in Victoria. Out of 245 persons buried in Ross Bay Cemetery last year there were 50 more than 80 years of age. Nearly 50 per cent. had reached 70.

Germany has proposed to the world disarmament conference that the British arms plan be amended to provide a maximum calibre of 106 millimetres for mobile guns and to abolish all tanks.

F. J. Burd of the Vancouver Daily Province and a director of the Canadian Press, was re-elected director of the American Newspaper Publishers' Association at the close of the 47th annual convention in New York.

Doukhobor children to the number of 154, who have been held almost a year in various public institutions at the coast, have been returned to their relatives in the Doukhobor settlements at Nelson.

Pointing out the railway line has been into Churchill for more than four years, a delegation at The Pas is urging the Manitoba Government to complete a hotel this summer for the accommodation of the travelling public.

The last train that will ever run over the abandoned Canadian Pacific line at Mono Road, Ontario, killed A. Stewart, Toronto, and injured Frank Sandell, whose car was struck by a work train proceeding to tear up the line.

One million trees—mostly spruces and pines—will be planted in Valcartier district by the unemployed men to be stationed there by the Dominion Government this summer. They will be furnished by the Quebec Government.

Reduction in the board and residence fees of Royal Victoria College, women's section of McGill University, was announced. The fees will be reduced from \$500 to \$450 and the new scale will go into effect at the opening of the next term.

The number of persons in Canada who are receiving direct relief is placed at "over 1,600,000" by Miss Charlotte Whitton, executive director of the Canadian council on child and family welfare, in her report. The monthly cost of this relief Miss Whitton places at approximately \$6,000,000.

Says Rumor Unfounded

"Of course it is not true," said H. Kawamura, Charge d'Affaires of the Japanese legation at Ottawa, commenting on statements made in the House of Commons by Thomas Reid, Liberal, New Westminster, B.C., to the effect Japanese naval officers in guise of fishermen had obtained employment in fishing activities to familiarize themselves with Canada's Pacific coast.

After a checkered career of 353 years Archbishop Abbot's school, Guildford, England, has been closed for lack of funds.

Win Strathcona Fellowships

Award To Three Canadians Announced By Yale University
Award of five Strathcona fellowships for the investigation of transportation problems has been announced by Yale University, three of the fellowships being awarded to Canadians.

The recipients are Robert A. Emerson, Morden, Man.; S. Milne Gossage, Montreal; Palmer E. Savage, Montreal; Thomas M. C. Martin, Warsaw, Wis.; and Lyell R. Sheelbarger, Hopkins, Minn.

Strathcona fellowships were made possible by the bequest of Lord Strathcona, identified with the pioneer days of railroading in Canada. All five successful candidates have had previous railroad experience, two of them being third generation railroad men.

Children Uprooted Trees

Jealous Because They Were Left Out Of Arbor Day Ceremony

Jealous children who were not chosen to assist in an Arbor Day ceremony took their revenge at Ladysmith, South Africa. The town fathers and leading citizens assembled on the sports ground and entertained a number of school children. Lectures on trees were delivered and after the speechmaking the children were entertained with music and refreshments. The mayor and magistrates then each planted a tree, assisted by certain children. Next morning the trees were found uprooted and stripped of their foliage.

Trip To West Indies

Summer Cruises On Fast Cunard Liner Mauretania

Five summer cruises from New York to the West Indies have just been announced for the fast Cunard liner "Mauretania". The duration of each cruise will be 12 1/2 days, the steamer leaving New York on a Saturday and returning Friday two weeks later. It is considered this will make the cruise very suitable for those whose vacations cover only two weeks.

The itinerary for these cruises will be much the same as that covered by the "Mauretania" so successfully this last winter. The ports will include Port of Spain, Trinidad, La Guayra, Venezuela, South America, Willemstad, Curacao, Colon, Panama and Havana, Cuba.

Two nights and one day will be spent in Panama, allowing passengers time to cross the Isthmus to the old city of Panama and view the various locks on the way. The same period will be spent also in Havana, with bathing, racquet basketball, golf and jai alai to attract the visitor.

Practically a full daylight day will be spent ashore in each of the other ports.

Cruise sailing dates are July 8th, July 22nd, August 6th, August 22nd, and September 5th.

Commenting on this unusual cruise programme, Arthur Randles, general passenger manager of the Cunard and Anchor-Donaldson Lines in Canada, said, "We have had so many inquiries this year for summer cruises to the West Indies that we have decided to schedule a programme which a few years ago would have been impracticable. Apparently thousands of people who cannot get away in the winter are anxious to visit the places in the West Indies which they have read of and heard so much about, but which up to now have been inaccessible in the manner arranged for winter vacationists, that is, by cruises in large Atlantic liners on the all-inclusive expense basis. Because of the tremendous number of inquiries received at our offices we decided to look into the question of climate thoroughly. We obviously did not want to send pleasure cruises to the West Indies in summer if there was any doubt as to whether such voyages would encounter pleasant and comfortable weather.

"To this end we obtained official weather and temperature reports for the entire year at various West Indian ports which the "Mauretania" touched at this winter. We found that these statistics bore out completely what our agents in these ports had represented, that the variation in temperature between summer and winter was practically negligible.

"During the day the islands are swept by constant trade winds, so that a sultry day, such as we experience in New York is practically unknown. The nights are invariably cool and comfortable.

"Summer seas prevail throughout the entire itineraries practically guaranteeing complete absence of motion, the highly desirable feature of cruising at sea without the discomfort of rough weather.

"The cost of sea cruising was never so economical from the passenger standpoint as it is today. The rate for these cruises is less than what an ordinary summer vacationist spends at home or in a Canadian or American resort."

Aircraft In Demand

There is practically no depression in Edgware, Middlesex, England. British civil aircraft have proved so popular that the De Havilland aircraft factory has been forced to work a full staff both night and day. The company's business has increased 40 per cent. in recent months and deliveries have fallen away behind orders.

SOURD ON THE WORLD?—THAT'S LIVER Wake up your Liver Bile

—No Calomel necessary

Many people who feel very sluggish and generally weakened make the mistake of taking salts, oil, mineral water, laxative candy or shaving cream, or rougians which only move the bowels but do not cleanse the liver. What you need is to wake up your liver bile. This is done by pouring the two pounds of liquid into your bowels. Get your stomach and bowels moving at once. You should, every day, take a few drops of this. It will soon get you to your normal state. Safe, Pure, Quick, and cheap by mail. Return enclosed. See at all druggists.

SUNDAY SCHOOL LESSON

MAY 14

JESUS ASSERTS HIS KINGSHIP

Golden Text: "Behold, thy King cometh unto thee: He is just, and having salvation." Zechariah 9:9.
Lesson: Mark 11:1-33.
Devotional Reading: Revelation 5:9-13.

Explanations and Comments

Jesus Publicly Claims To Be the Messiah, verses 1-10.—We have come to the solemn entry of Jesus into the Holy City in a triumphal procession for which He deliberately planned. We have heard Him caution some one not to report a miracle. He has brought, or charge the disciples to "tell no man that He is the Christ." And after the feeding of the five thousand He escaped to the hills when the people sought to make Him king. He has constantly feared that popular enthusiasm would hinder His mission. Now, however, another purpose is impelling Him to seek publicity, to court the enthusiastic worship of the people, to let the world know that He is the Messiah. He no longer dreads interruption to His work. His hour has come.

When in the neighborhood of Bethphage and Bethany Jesus sent two of His disciples to secure for Him a colt that had never been ridden. Should their right to the colt be questioned by the owner, all they would need to say was that the Lord hath need of him and would return him. It all happened as Jesus said. The colt was found tied to the street at the door of a house, the disciples were challenged as they unlocked him, and upon reply as they were directed they were allowed to lead the colt away. They threw their loose outer garments upon the colt as a seat for the Royal Rider.

"I beheld the procession descend the mountain bringing Him," said the Egyptian to Ben Hur, "I heard them singing. They were beautiful with palms in motion. I looked everywhere among them for a figure with a promise of royalty—a horseman in purple, a chariot with a driver in shining brass, a stately warrior behind an orb shield, rivaling his spear in stature. I looked for His guard. It would have been pleasant to have seen a prince of Jerusalem and a cohort of the legions of Galilee. Instead of a Caesar helmeted and sworded, I saw a Man, riding an ass' colt."

"The manner of His riding into Jerusalem was in keeping with all Jesus' appearing among men. The keynote of it was struck at the very beginning on that first Christmas morn, when the King came as a helpless Child, loaded with disabilities of place and family and position in the world. The stable and the manger and all the other conditions of that birthday of Jesus in Bethlehem are only object-commentaries on the essential nature of His character and work. His life was consistent from the manger to the cross. He was the same Prince of Peace in His triumphal entry into Jerusalem as in His humble entry into Bethlehem."—Hugh Blair.

Quebec Town Lowers Taxes

Rigid Economy Has Provided Montreal Suburb With Surplus

Among the Quebec municipalities that have maintained balanced budgets through the difficult years of the current economic depression is the town of Mount Royal, a suburb of Montreal. Mayor T. S. Darling of that municipality is not only in a position this year to announce a balanced budget but also a reduction in the tax rate from twelve to eleven mills.

Revenue for the year is estimated at \$100,838 against estimated expenditure of \$98,985. The estimated surplus and the tax rate reduction have been made possible, Mayor Darling said, through reducing the town's expenditures on non-essentials and keeping maintenance costs to a minimum.

In its 21 years of existence Mount Royal has not wasted much money on election costs. Mayor Darling has been elected by acclamation for 21 consecutive one-year terms.

Will Visit Grain Show

The Governor-General and Lady Bessborough will be visitors to Regina during the World's Grain Exhibition and conference, it was learned unofficially recently. Word from an authoritative quarter has been received by those in charge of the exhibition stating that their excellencies, on their forthcoming tour, plan to spend a day or two in Regina at the time of the exhibition.

Tennis rackets are the favorite diet of an insect, one-quarter of an inch long, which has just invaded England.

Holding Garden Contest

Undertaking Being Sponsored In Winnipeg By Women's Canadian Club

Designed to develop a spirit of self-help, and giving scope to the competitors, a garden contest for the unemployed of Winnipeg will be staged this summer by the Winnipeg Women's Canadian Club. The city is divided into 12 zones for the contest and prizes will aggregate \$250. Each contestant will also receive 12 tomato plants from the committee. Zone canning centres will also be established to save the garden products.

Points will be awarded each month for such results as family co-operation, planning, arrangement and maturity; development of growth, when ready for eating; freedom from weeds and apparent yield; appearance, proper thinning and use of thinnings; freedom from insects and disease; care of surplus; straightness of rows, utilization of space, condition of crop and use of products in the home.

Cash prizes will be awarded in each district with a grand prize for the city title.

In a recent compensation claim case in Manchester, England, the judge ruled that a policeman is not a worker.

MECCA THE HOUSEHOLD OINTMENT 25¢ TRY IT

U. S. CURRENCY INFLATION PLAN IS APPROVED

Washington.—With a roaring chorus of ayes, piling up a vote of 307 to 86, the United States House of Representatives approved the Roosevelt currency inflation plan.

The inflation rider which now has complete congressional approval, will allow President Roosevelt, among other things, to expand currency and credit by as much as \$6,000,000,000 in addition to altering the gold backing of the United States dollar by as much as 50 per cent.

Action came on the inflation amendment in the House after it disagreed to all senate farm relief amendments and sent them to conference.

The inflation amendment gives President Roosevelt broad powers over the financial structure of the government. These powers could be used alternatively or together, depending upon needs to meet the financial situation.

Briefly it permits: The Federal Reserve banks to buy \$3,000,000,000 in outstanding government bonds, against which currency may be issued.

The president to issue if he sees fit, another \$3,000,000,000 in United States notes.

The president to reduce, up to 50 per cent, the content of the gold dollar.

The president to change the ratio of the silver dollar and provide for the free coinage of silver.

The president to accept \$200,000,000 in silver from other countries as payment on the war debts at the rate of up to 50 cents an ounce, against which currency may be issued.

Great Air Armada

Italian Aviators To Cross North Atlantic In June

St. John's, Nfld.—Italian aviation experts, busy preparing for the great air armada that will cross the north Atlantic in June, announced recently that two submarines and two drifters would arrive here the middle of May. These vessels will act as convoys for the 24 airplanes of the "11th year crusade" along the northern route.

The airplanes, scheduled to leave Orbetello late in May or early in June, will fly to Chicago for the Century of Progress Exposition, touching at Amsterdam, Holland, Londonderry, Ireland; Reykjavik, Iceland; Cartwright, Labrador, and Shediac, New Brunswick.

Three advance "planes" arrived here last week on the "Roceland," and as soon as weather permits they will fly to Cartwright to establish a supply base for the flotilla.

Re-Armament Idea Is Disavowed By Germany

Delegate To Conference Says Opinion Is Wrong

Geneva, Switzerland.—Germany, through her delegate to the world disarmament conference disavowed the "opinion that Germany wishes to avail herself of disarmament to proceed with re-armament at the highest possible level."

Count Rudolf Nadowitz, the German representative, proposed, the British arms plan be changed to provide a maximum calibre of 105 millimetres for mobile guns and to abolish all tanks.

"There are still great difficulties but they are not insuperable," Count Nadowitz declared after suggesting the amendment and explaining that if the German proposals are rejected, his nation should be allowed all land, naval and air armaments deemed necessary for defence by other countries.

Calgary Unemployed

Calgary, Alberta.—Unemployed to the number of 370 reported at relief jobs despite the unemployed married men's relief strike, sponsored by workless organizations in protest against lower summer relief allowances.

Muskies Menace Free States' Hydro Scheme

Government Seeks Canada's Advice

On Means of Extermination
Dublin, Irish Free State.—Canadian muskrats are believed to be threatening the Free State's great hydro-electric scheme on the river Shannon. In an unguarded moment last year the Department of Agriculture gave permission for the importation of two of the rats from the Dominion.

After a short period in captivity the animals escaped from their owners and last week it was discovered the Free State was afflicted with a pest from which it had hitherto been immune.

Half a dozen of the rats were shot by a Tipperary farmer who observed them on a Shannon embankment and mistook them for otters.

The Department of Agriculture has ordered an investigation and experts from the Department of Industry and Commerce fear stringent measures will have to be adopted to prevent the pests from damaging the hydro-electric scheme embankments.

The government has promised to introduce a bill in the dail which will make the rats illegal inhabitants of the Free State, believing the present system of licensed importation is inadequate. In the meantime the department of agriculture is to seek advice from the Canadian Department of Agriculture as to the best means of exterminating the animals.

Ramsay MacDonald Says Visit Was Successful

British Premier Pleased Over Talks With President Roosevelt

Southampton, Eng.—A cheering crowd on the dock greeted Prime Minister Ramsay MacDonald on his return from his economic discussions with President Roosevelt in Washington.

Mr. MacDonald declared on landing that he was very pleased with all of his conversations with Mr. Roosevelt, which he described as most successful.

The prime minister said it was well worth while going ahead and tackling world problems which were bound to yield to co-operative good will. It was that good will which he found in a striking way in Washington, he declared.

He denied inviting Mr. Roosevelt to come to London for the world economic conference which is to open June 12, saying that the matter never was mentioned between them.

"I am very pleased with the whole of the transactions," the prime minister told interviewers. "I met a man who is sincerely interested in getting things to move in the world, and we found ourselves in most complete agreement. We had talks on how to do it of the most friendly kind."

Milk Probe Finished

Ottawa, Ont.—The parliamentary milk probe is virtually ended. Only in the eventuality of a desire for enlightenment on the milk situation to be explained by some particular witness will any further evidence be taken. After its 25th sitting the committee gave out this official intimation. An immediate report to parliament is probable.

Ottawa May Erect Building

Ottawa, Ont.—A large office building in Ottawa is planned by the government to relieve unemployment. It would be west of the Confederation building on Wellington Street. It is proposed that the new structure, which would cost \$5,000,000, would be paid for by "transient notes," to be paid off in annual payments, instead of the more costly plan of issuing debentures.

March Exports To U.S. Down

Ottawa, Ont.—Agricultural products exported to United States in March totalled \$416,780, all against \$453,823 for the corresponding month last year, according to a report issued by the Dominion Bureau of Statistics. For the nine months ending March, farm products exported to United States were valued at \$2,517,705, as compared with \$7,731,674 for the corresponding period in 1931-32.

W. N. U. 1933

CREATED BRITISH AIR FORCE

Great Britain has lost one of the greatest minds behind the creation of the British Air Force with the sudden passing of Sir William Geoffrey Salmond, commander-in-chief of the Air Defence of Great Britain. He was to have become Chief Air Marshal this month, in succession to his brother, who was to retire.

Obligations Will Be Covered By Debentures

Shareholders At Annual Meeting Of C.P.R. Approve Issue

Montreal, Que.—To permit the liquidation of short term loans amounting to \$30,000,000 and other maturing obligations, shareholders approved the issue of additional consolidated debenture stock at the annual meeting of the Canadian Pacific Railway Company here.

In his address to the meeting Edward W. Beatty, chairman and president, said despite unfavorable conditions the operations of the company showed it had come through in excellent physical condition and with its financial structure on a conservative basis.

Working assets at the end of the year were \$52,811,144, while current liabilities were \$14,311,257, a ratio of 3.7 times.

Mr. Beatty, Senator Frederick L. Belue, W. A. Black and Lord Shaughnessy were re-elected to the board of directors, their present term of office having expired. The address of Mr. Beatty was adopted without discussion.

Railway Making Profit

B.C. Road Announces Revenues Exceed Expenditures

Vancouver, B.C.—The Pacific Great Eastern Railway is one of the brightest spots in British Columbia industry, according to reports just submitted by Robert Wilson, executive assistant to the board of directors. Revenues will exceed expenditures for the first six months of the current year, it is projected.

Mr. Wilson declares this will be the first time revenue has topped expenditure in the first six months of any year the road has been operated.

Statement for March shows a profit on operation of \$879, as compared with a loss of \$15,465 in March of last year.

PRESS PHOTOGRAPHERS BID MACDONALD NON VOYAGE

Here is an interesting photograph of Prime Minister Ramsay MacDonald, with his daughter Tabitha, photographed on board the liner "Berengaria" just before he said goodbye to America. The press photographers gave him one of their typical "bon voyages," and a few of the camera men can be seen in the foreground.

Surtax On U.S. Goods

French Minister Of Finance Is Ready To Take Action

Paris, France.—The ministry of finance has prepared to impose shortly a 15 per cent surtax on U.S. goods.

The decree, it was learned, is ready for signature, to be issued when the U.S. dollar approaches 20 francs, which officials expect.

This surtax already is effective on British and Japanese goods because of depreciated exchange.

It cannot be increased without parliamentary authority, which Premier Daladier was reported contemplating. American residents in France and tourists, who already have lost a large part of their incomes, have been badly hit by the 15 per cent fall in the dollar. Many of them, unable to hold out longer, are beginning to flock back homeward.

Movements of both the dollar and the pound sterling have been complicated by the weakness of the franc, but it was hoped France will be helped by measures the government is considering to defend French commerce and further slashes of the budget by the senate. This, the ministerial press indicates, the cabinet supports.

Weakness of the franc was attributed to concern over the repercussions of commerce of the unbalanced French budget and the necessity for borrowing abroad.

A general race to wind up pending commercial pacts before the convening date of the world economic conference in London, England, June 12, was discussed in some quarters.

Prorogation Of House

Early Closing Of Ottawa Parliament Is Anticipated

Ottawa, Ont.—Possibility of an early prorogation of the House of Commons was seen in the course of an interchange on the subject between Prime Minister R. B. Bennett and Rt. Hon. Mackenzie King, leader of the official opposition.

The question arose when Hon. E. N. Rhodes, Minister of Finance, asked for a second interim supply of 1-12 of the total, in order to carry on day to day requirements of government, and meet the May 15 salary list.

Mr. Mackenzie King suggested that, as the opposition had no desire to further prolong the session, it might be possible to prorogue before the middle of May and that interim supply would not be necessary.

Sugar Tax Passes House

After Liberals Made Demand For General Retrenchment Scheme

Ottawa, Ont.—The two-cent sugar tax passed the House of Commons after demands from Liberals for a general retrenchment scheme to trim the costs of government. Official Ottawa, said Hon. James Malcolm, former minister of trade and commerce, should take a lesson from private business and cut its overhead. He instanced the 34 research laboratories operated in various government departments and, at the same time a national research council equipped to handle the same work.

BAN OATH OF ALLEGIANCE TO BRITISH CROWN

Dublin, Irish Free State.—Hope that he soon would have the pleasure of proclaiming Ireland a free republic was expressed by President Eamon de Valera in a hushed Dail during the closing debate which followed the enactment of a bill removing the oath of allegiance to the British crown.

The president added that he was resolved to wipe from the existing constitution "everything inconsistent with the sovereign rights of the Irish people."

This utterance was the most definite of the kind de Valera ever had made.

"We are going to remove from the constitution every badge of inferiority," the president declared. "The people will be consulted before the republic is declared."

Holding aloft a copy of a draft constitution submitted by an Irish delegation to Great Britain in 1922 which was amended by the British, de Valera said the would take from it every clause Great Britain "forced" them to accept.

The abrogation bill was re-passed by the Dail Eilreann by a vote of 78 to 66. Previously twice rejected, it becomes law through invocation of article 38a of the constitution, setting a time limit on the upper chamber's veto.

The action was taken on the motion of President de Valera himself, made in Gaelic, the Irish national language.

Conviction that the British government would consider the Anglo-Irish treaty setting up the Free State broken, the content the first person took his seat in the dail without subscribing to the oath, was expressed by Gratian Edmond, supporter of former President William T. Cosgrave.

President de Valera replied he did not believe the bill's passage was a violation of the treaty and added it was his intention to continue pressing for removal from the constitution of any "symbols" regarded as inconsistent with the position of the Free State. One of these "symbols," the oath, he said, was being removed and others would disappear through legislation in the near future.

Thirty Professors Lose Positions In Germany

Dismissed From Berlin and Cologne Universities Under Hitler Regime

Berlin, Germany.—Opening of the summer semester at German schools and universities under the auspices of the Hitler regime has been marked by the dismissal of 30 professors from Berlin and Cologne universities.

Meanwhile the students' federation of the former institution has inaugurated a boycott against Jews remaining on the staff, contending that "the German student resents having the principles of knowledge and thinking set by Jews."

It is the duty of every German student, the federation declared, "neither to enroll in courses nor to hear lectures given by Jews."

Dismissal of the 30 professors, 21 from Berlin University, and nine from the Cologne school, was announced by Bernhard Rust, Prussian education minister.

To Prosecute Gold Hoarders

Time Limit For Surrender To U.S. Treasury Has Expired

Washington.—United States government has said it intends to proceed against gold hoarders, but it has yet to reveal its course of action. Indications are that many hoarders are waiting for treasury officials to show their hand.

The time limit for returning gold has expired, and it is understood the treasury is checking a list of hoarders compiled by banks. Last week there was approximately \$700,000,000 in gold and gold certificates still out, the bulk of it believed to be in hiding in this country.

Mixed Business.

Farmer Jones went to town the other day with the usual farm produce perched on the back bumper, says a writer in the Market Examiner. After disposing of it—or rather giving it away—Jones paid a visit to his friend Bill Boxwood the Looksmith.

Bill was kinda depressed. Bill's specialty was making padlocks for banks. But as banks nowadays have no deposits, only overdrafts, and as they put all the overdrafts in the frigidaires, which they don't look, Bill didn't make many sales.

"Hello, Bill!" greeted Jones.

"How's trade and commerce?"

"Well," replied Bill, "just now trade and commerce is from middling poor to dam bad. How's the vegetation on the farm?"

"Gone to seed, by heck!" returned the agriculturist. "However Prosperity's just around the corner. Say, I know what's the matter with you fellows in town—you don't mix your operations enough; you specialise too much. Specialising needs brains, but mixed business supplies the lack."

"Take me, for instance. I'm a farmer, but I'm also a blacksmith; I can use a hammer and saw, or a plasterer's trowel. I can lay bricks; put up a house; plough a cow; dose a hog; I know how to make hens lay. I can run a school; govern a municipality and—and—" finished the farmer with a grin, "I can do anything but make money."

"Yeah," agreed Bill. "I believe you; but what's this mixed business racket?"

"It's like this, Bill: You make padlocks, don't you?"

"Yeah—occasionally."

"Just so. Well, why not make hats also? Buy a supply of old derby hats and I'll supply you with horsehair and feathers, and you'll have the makings of those cute little things the ladies are wearing on their heads just now. With a little ingenuity you could set a fashion—See?"

"Yeah—go on."

"Then why not do a little butchering and baking, candy making, and clock repairing? I would not advise you to attempt to doctor anybody or to try to remove appendices, or defend anyone in court, because these doctor and lawyer birds are kinda clannish and resent any unauthorised help. But you don't need a diploma to go into the banking business, and you could manage a theatre—if they'd let you. Then how about a shoeshine parlor, with a soda fountain and hot dog stand? And why leave all the women's ready-to-wear shops to the Israelites? Are not the women always complaining that they haven't a thing to wear? This certainly must be a profitable trade, or why the Hebrews?"

"You see, Bill, you want to shorily mix up your operations. Don't put all your talents into one padlock. If a man won't buy a padlock, sell him a pie; or offer to lend him \$10 at 8 per cent, provided the Provincial Gov't backs his note. Tell him hats will be worn next Fall on the left shoulder, tilted north by west, and that you have them in stock now."

"Russ" Wood Goes West

Mr R E Wood, one of the town's pioneer business men, has pulled up stakes and left for pastures new, in the adjoining province to the west. His meat market has been taken over by a gent from Edmonton, who took possession on the 1st.

He intends locating in the new gold-prospecting district near Prince George, B. C. On his arrival at Pr. George, he will go to his destination, some 80 miles away, via his motor truck. Russ returned to Stony a few weeks ago, having been out to the new layout and gave it a lookover.

Previous to his departure he was given a farewell dinner by his friends of the curling club.

Mr Wood carries with him the best wishes of his friends in Stony and district, who realise his place here will be hard to fill.

How to get to SLEEP

When you can't sleep, it's because your nerves won't let you. Don't waste time "counting sheep." Don't lose half your needed rest in reading. Take two tablets of Aspirin, drink a glass of water—and go to sleep.

This simple remedy is all that's needed to insure a night's rest. It's all you need to relieve a headache during the day—or to dispose of other pains. Get these Aspirin tablets and you will get immediate relief.

Aspirin dissolves immediately—gets to work without delay. This desirable speed is not dangerous; it does not depress the heart. Just be sure you get Aspirin tablets.

CHAPTER X.—Continued.

For a moment, groping about to retrieve his blunder, Buzzard hardly knew what to say or do. There had been no mistake; he had seen that incident with his own eyes when he glanced through the window to find where Alan was. He debated whether to draw back from his statement or to plunge ahead and tell the rest of it—Joyce's momentary battle, the shudder that swept her whole body when she put the scarf into the stove, and the quick blinding tears that she dashed away.

He thought: "Better not get any deeper into this. I'd only blunder again. Better back out entirely."

He stammered: "I might have made a mistake. I might—uh—it might have been the wrapping paper. I just merely saw her put—uh—something into—and I jumped to conclusions. Must have been the wrapper. Why would any person want to burn up a gift like that? Let's forget it."

His tones carried no conviction. He realized it himself. Alas! He disbelieved him; Alan knew Joyce had burned the scarf he gave her.

Cursing himself hotly, Buzzard looked out across the purpling river. He had meant only the best, and he had dealt Alan a savage pitiless blow. After a little time Alan said to him:

"You'd better go up, Buzzard; she may be waiting for us."
"Aren't you going?"
"No—not now; I don't much care. . . . I don't want supper."

"NOW I FEEL FULL OF PEP"

After taking Lydia E. Pinkham's Vegetable Compound

That's what hundreds of women say. It steadies the nerves . . . makes you eat better . . . sleep better . . . relieves periodic headache and backache . . . makes trying days endurable.

If you are not as well as you want to be, give this medicine a chance to help you. Get a bottle from your druggist today.

W. N. U. 1998

Something in his voice warned Buzzard not to urge him. As he turned away, Alan said, in the tones of a man who has made some hard and abiding decision:

"When you've had supper, come back down here; I'll help you with that work; we'll do it now, so we can get away early. I was thinking—of this evening—something else. But that's out now."

At three o'clock the next morning Buzzard lifted the "plane out of the Big Aloooksa. With Alan directing him, he headed due north.

One hundred and thirty miles away, nearly four hundred miles from Fort Endurance, a small tribe of Thlingit lived along the western fringe of the Thal-Azzah. They were a timid, skulking, inoffensive band, shrouded into a region where other tribes scorned to live. Dave MacMillan had been their friend and they brought him their furs and Alan, during his years at Endurance, had sent a protective patrol to them twice a year.

Joyce had found out where they were spending this summer; and Alan had a mission with their old headman, Mugwa-Ethien.

When the timber country began yielding to lakes and semi-cranked, he got out his glasses and started searching ahead for their camp. At a height of five thousand feet he could sweep a region of more than two hundred thousand acres. The eyes of an eagle, the wings of a bullet-swift arrow, and that big-headed Browning machine gun—through luck and driving purpose and a faith in his dubious plan, he had smashed through obstacles till now he held the power and heavy odds over those bandits.

The sure knowledge of this was about all that was left to him. His work in the Mounted, his life here in the North, were both gone; and Buzzard's cataclysmic words last evening had showed him that his secret hope toward Joyce had been a fool's hope, a fool's wasteful thinking.

How low he must have fallen in her estimation, that she should burn his gift to her! At first it had seemed a little cruel of Joyce to do that. But then he looked at the incident with relentless honesty, and he could not blame her. Once he and she had planned to marry. People had spoken of it; it had been generally accepted along the River. She had liked him, loved him. What must her feelings have been as she watched his relations with Elizabeth, and saw him engaged to another girl and coming no more to the Big Aloooksa? She must have felt shame, a burning shame, at being jilted. Month after month a month of that—it had been an outrage to her girlhood. Nothing she could do to him could be so heartless as what he had done to her.

Through the propeller disk he at last sighted the Indian camp, a cluster of brown, leather tents beside a lake where the band was passing the summer near their fish weirs. Buzzard roared over the camp and barked to alight. Old Mugwa-Ethien, a gaunt and wrinkled old savage, started up and gravely bade them welcome.

After this flood season of heavy rains, Alan knew there were a few acres in the watery wilderness of the Thal-Azzah where a party of men could camp. He himself had only a hazy idea of those areas; but this old headman, Mugwa-Ethien, who followed the Caribou, had lived his life along the border of that great marsh and knew it better than any man alive, and could probably give him a pretty definite idea where to look.

Very wisely, Joyce had kept from letting the nomad bands know anything about the police defeat. The Shagalahas maintained order in so huge a territory largely through their reputation of never failing, and the news of their stinging defeat would do incalculable harm. Joyce had not even told old Mugwa-Ethien.

After pledging the headman to silence, in guttural Thlingit Alan began sketching the story of the robbery and battle. As he told of the bandits escaping to the Aloooksa, he noticed that the old chief suddenly became all interested.

Alan looked at him keenly. "Something up," he thought. "I've stumbled onto something." He demanded: "When I saw two three breaths ago you were hit back. Why?"

Drawing a crude map of the Thal-Azzah with his bony forefinger, the

HAS LOST FAT FOR THREE YEARS

68 lbs. Gone Altogether

A woman writes:—"For nearly three years I have been taking Kruschen's Salt, every morning in hot water, and have lost 68 lbs. of fat. My weight before taking them was 196 lbs., and it is now 128 lbs. Compare the difference—it is marvellous. My mother and sister are also taking Kruschen and lots of our friends, and think they are wonderful. As regards diet, it is not necessary to do one little bit of dieting; in my case I have never denied myself anything since I started taking Kruschen Salts. I walk every day, and do not eat many potatoes or much sugar. I don't think I shall ever be grateful enough to Kruschen Salts for the great help they have been to me, and shall never stop taking them, or recommending them to people I think need them."—Miss F. K.

Taken every morning, Kruschen effects a perfectly natural clearance of undigested food substances and all excessive watery waste matter. Unless this wastage is regularly expelled, Nature will eventually store it up out of the way in the form of ugly fat.

old headman sprang his astounding news.

Ten years ago, he said, Tukeok and another young buck had gone westward into the Land of Many Waters to locate rat colonies for autumn trapping. One evening they heard the boom-boom of fire-sticks far away southwest. Slipping up, timid, cautious, they saw some strange men shooting waffles for food. They saw a tent, a camp on an island in the lake.

For several minutes, fighting down a wild elation, Alan forced himself to crouch there, asking questions, fixing that map and that spot unforgettably in his mind.

At the wigwags he rejoined Bill. "Come on! Let's be getting into the air! An hour and a half from now we'll be saying it with a machine gun. When we flew up here we brought our luck along!"

From his height of three thousand feet, reading the country spread below him, Alan could follow the crude finger map without once being in doubt. "That should be the great blue-water lake which Mugwa-Ethien had described. It should have islands in the center of it. On one of the islands near the north edge of the cluster the bandits should be camped, if they had not moved on."

"Swing north!" he shouted at Buzzard. "Those islands there to themselves. . . ."

The machine swerved and thundered closer. One by one Alan started to search the five. On the first one, nothing. On the second, nothing. But on the third . . . He started suddenly as he caught that center one in clear focus. Below them on that center island, conspicuous to their sky patrol, stood a solitary dirty white tent.

"After a few moments Alan had presence of mind again. He leaned forward and shouted instruction: "Drop down to a thousand feet. Fly over that island again, slow. Want to study it carefully before we start things."

Buzzard dropped down, swung around. As the "plane sailed over a second time, Alan drew the island up to him, studying the tent sharply, he saw a movement of the flap-front and distinguished a man's face, upturned, peering at them.

One bandit there at least! But the others?

A guess shot into his mind: those others had probably gone hunting for caribou over east at the foot.

As though that wretched there below realized what this ominous circling meant and had become panicky, a puff of white, a single puff, burst from the flap-front. Confident the man was alone and the others were gone, Alan decided to take his bandit alive. He needed information.

DOCTORING YOUR DAIRY HERD

Cows aren't machines. They can get sick or hurt. But Minard's Liniment makes it easy to care for their ills. Mrs. J. Rose, Balmer of Lardo, B.C., found one of her herd with a lump in her udder. "I rubbed it with Minard's Liniment," she says, "and it soon got better. Minard's is best for Cuts, Bruises, Colic, Distemper, etc., and equally good in almost all cases." Well named "King of Pains."

about the others, and information about that pack of furs to clear Dave MacMillan.

While Buzzard circled at a safe distance, he tore a page from a memo book and printed a message:

"If you shot again, we'll splatter you and that island into the lake with our machine guns. Stand out in the clear. No weapons on you. Don't try any crossed movements, or we'll light."

He wrapped the message around a monkey-wrench and handed it to Buzzard. From wartime practice of dropping "eggs" on ammunition dumps and second-trench Flammenwerfer and camouflaged batteries of Krupp 79's east of Verdun, with no aerial sights except two nubs and a string along the fuselage, Buzzard was a good judge of speed, altitude and the right split-instant to release. Whirling over the island, a few hundred yards up, he planned the missile with in a dozen paces of the flap-front. As they looked back they saw the man run out to it, read the message, hesitate a moment, and then raise his left arm, waving something white.

A pistol-shot off the island the "plane lighted. Buzzard stayed in the machine, Alan and Bill got out the canvas, slipped automatics into their pockets, took rifles prominently in hand and went ashore.

While Bill searched the bandit for a hidden revolver, Alan looked at him curiously. He was a strange character to find in this country. Slant-eyed, his skin olive, he looked as though he had oriental blood in his veins. The rag he had waved in token of surrender was a sling. His right arm dangled limp at his side.

Alan demanded, "Are you the fellow we hit in that fight?"

"Chink" Woolley nodded.

"Are those other men out hunting?" Alan asked, "or where?"

Woolley batted his eyes slowly, as though taking thought. "Huntin', yes," he managed.

"Which way?"

"North-east."

(To Be Continued.)

THE RHYMING OPTIMIST

By Allan Macmillan

YOU HAVE COME BACK

You have come back; the garden ways
Are bright as in those other days
When violas and pansies
And magnolias
And larkspur flowered to win your praise.

You have come back; the old house glows
Again as gracious as a rose.
Through every room
Like rare perfume
The magic of your presence flows.

You have come back, and O, my dear,
The wonder of your being here
Brings back anew
Old dreams we knew
And love we lost in yesteryear!

Cause Of Suicides

Masculine Vanity Said To Be At The Bottom Of A Large Percentage

A study of suicides in the United States as disclosed in cold insurance company statistics led Dr. William Muhlbreg to conclude that masculine vanity was at the bottom of a large percentage of these tragedies in the last three years.

"The thing that drives men to take their own lives, it seems," he said, "is their inability to swallow the pride they have enjoyed during their prosperous years. It is not the haunting fear of seeing his children go hungry, or his wife weakened under the monotony of housework, so much as it is the agony of visualizing his neighbor's gleam when his 12-cylinder super-sedan is sold, and the family withdraws from the country club."

Friendship Tours Organized
"Friendship Tours," organized overseas, will bring parties of British women to Canada and United States to attend the International Congress of Women and the World's Fair at Chicago in July, according to word received at the Canadian National Railways Passenger Department, Montreal. Information indicates that about 200 British women will join the tours.

Rheumatism

Is caused by failure of kidneys to remove uric acid poisons from the blood. Gin Pills relieve by neutralizing this acid and restoring the kidneys to normal action—50c a box at all druggists.

Little Helps For This Week

"This God is our God forever and ever; He will be our guide even unto death."—Psalm 48:14.

Be still my soul; thy God doth undertake To guide the future as He has the past. Thy hope, thy confidence let nothing shake. All now mysterious shall be bright at last.—J. Borthwick.

He has kept and folded us from ten thousand ills when we did not know it. In the midst of our security we should have perished every hour but that He sheltered us "from the terror by night and the arrow that flieth by day"—from the powers of evil that walk in darkness, from snares of our own evil will. He has kept us even from ourselves and saved us from our own undoing. Let us read the traces of His hand in all our ways, in all the events, the changes and chances of this troubled state. It is He that folds and feeds us, that makes us to go in and out,—to be faint or fed and pasture, to lie down by the still waters, or to walk by the way that is parched and desert.—H. E. Manning.

Age Of Technocracy

Machine Power Shown To Be Much Cheaper Than Man Power

The Montreal aldermanic relief committee has set out to determine just what are the differences between man-power and machine-power in labor, and here are some of the results:

1. One mechanical truck loader and operator costs \$2 a minute.
 2. Loader fills a truck in five minutes; the gang requires from 40 to 60 minutes.
 3. Cost per truck; Loader, 60 cents; gang, \$20.40.
 4. Cost per truck; Loader, 12 cents; gang, between \$2 and \$4.
- These preliminary data will be checked in a more extended experiment on a pipe-laying job next. The test grew out of the demand that labor-saving machines be done away with and unemployed laborers substituted.

Reciprocal Trade Agreement

Tariff Concessions Between Great Britain and Germany Over Limited Field

Reciprocal trade and tariff concessions between Germany and Great Britain were announced recently. The quota for British coal exports to Germany has been nearly doubled and in return, the United Kingdom makes tariff concessions over a limited field. The announcement of arrangements of increased trade with Germany follows upon an earlier statement declaring a new trade agreement with Denmark by which Great Britain's market in Denmark for her industrial products will be greatly increased in return for increased quotas granted to Danish dairy and agricultural products.

Lower Shelves with HANDI-ROLL

35 feet of white or colored paper for kitchen use—covering shelves, lining drawers, etc.

Applied Paper Products
Manufactured in Canada

Diamond Prattle---By H.C.O.

Rumor has it that Stony's Senior ball tossers are trying to enter a snappier league than the old Northwest. Here's hoping this "rumor" pays its rent before pulling out, as the fans would appreciate better ball.

With a little encouragement from Phil Harris, the favorite radio crooner, we may yet see a few girls at local ball games.

If Nature smiles on us with fair weather, the teams may yet get in a few more workouts before next Sunday's battle.

We are informed on good authority that the School Board may give the boys at the "High" a base ball—but what about a few bats?

The Case of Nick Pasemko.

A case which has caused a lot of comment around the Carvel district is that of the National Trust Company against Nick Pasemko. While Pasemko's affairs were being administered by the Debt Adjustment Act the National Trust mortgage against his farm was foreclosed and the land transferred to the company. When it was discovered that the land had been resold for considerably more than the amount of the mortgage and the amount of the valuations presented to the Court on the application for foreclosure, a number of Pasemko's friends took the matter up with our local member Mr MacLeod and a number of Government officials, with the result that Mr George J Bryan was requested to take over the case and apply to the Court to extend the time for payment and stay the Order for possession.

As a result an application was made last Thursday before Chief Justice Simmons, who granted a stay of possession but refused to re-open the foreclosure on the ground that the evidence submitted by Mr Bryan showing the value of the place to be greatly in excess of the amount of the mortgage, should have been presented to the Court on the application for foreclosure by Pasemko's agents at that time, the officials of the Debt Adjustment Act, or by the subject mortgagee.

The Chief Justice felt it was a hard case, but that there was nothing he could do at this date.

Elephant Brand Fertilizers, in packages and bags, for Gardens, Shrubs or Lawns, are now handled by the following merchants in this District:

STONY PLAIN HARDWARE SPRUCE GROVE HARDWARE P. FAULKS, DUEFIELD

For Larger Quantities to use on Field Crops,

LIMITED

A complete range of "Northern" Boots and Rubbers
is on hand to meet your needs—at

T. J. HARDWICK, STONY PLAIN.

Mother's Day.

On Mother's Day, Sunday next, May 14th, the pupils of the Sunday School will take the service in the United church at 7:30 in the evening. The pageant "The Rights of a Child" will be given by the senior girls.

Hogs to Be Bought on Grade.

Hog grading regulations providing for purchase of hogs on grade, which was endorsed by the Alberta Legislature last year, has now been put into effect by the Federal Gov't, it is announced from Ottawa, and purchases of hogs at shipping points must now be settled on the basis of grade.

Sunday Morning Blaze.

About 10:45 Sunday morning the chimney on the Korf Peterson residence on Second ave caught fire, causing quite a commotion in the vicinity. The fire is supposed to be due to a defective flue.

After some little time the blaze was extinguished, the efforts of the fire fighters being directed by Acting Asst. District Dep. Fire Chief Hen. T. Trapp.

It is probable the latter-named gent will have charge of the local brigade during the absence of the regular fire chief, on vacation in B.C.

Getting In on the Good Prices

The recent up-jump in the price of No. 2 Northern had the effect, during the past week of having the grain-raisers rush in with what grain they had on hand, to the local elevators. Some are said to have postponed their field work, to get the benefit of the higher prices for their product.

Mr A. Anderson, Holborn's enterprising farmer, last week loaded a car of wheat here in two days, the hauling from his home granary being done with the trucks of Messrs Fitzler, Propp and Hardicap. Mr Anderson's wheat graded No. 1, the price for this grade on that day being 47c.

News of Rosenthal.

While practising baseball on the Rosenthal diamond last week, Gwynne Davis had the misfortune to have the index finger of his right hand broken. The accident happened when Gwynne was attempting to pick up a low fast ball.

A large number from this district attended the Shan's wedding dance at Holborn hall. The visitors report having had a good time, with the exception of the "Happy Five," who got to bed about 5 a.m. owing to a tire that refused to hold air and a leaky carburetor.

Here's Good News—The owners of the "Hutson Bae" store at the entrance to Edmonton Beach expect to open up for business on Saturday, May 20.

Messrs Julius Kulat, Andrew and Wm Kotscherofski spent a day fishing at Wabamun creek. They report having had a swimming time; two of the fishermen had the misfortune to slip off a log into the water.—R.N.R.

Sporting Notes

The scheduled second game between Walther League and Stony Plain teams for the possession of the local Cup was washed out last Sunday. The contest is a 3 out of 5 affair. Stony's team won the first game on April 30 by the score of 12 runs to 4. Another game will be played Sunday next.

Those localities who are enthusiastic over soft ball games are trying to form a local club, and to arrange games with outside players.

Mr Wm Bonser, the well-known hockey player and coach, was in Stony Saturday, paying a visit to old sporting friends. "Bill" is organising a party to motor out to the new gold fields at Quesnel, B. C., to dig for the precious metal.

Stony Plain and District

Mr Bryan has spent considerable time in Edmonton the past week, conducting proceedings to oust two Lac la Biche Councillors. Monday morning Judge Crawford signed the Order relieving them of their office.

The following local gentlemen have been summonsed by the Clerk of the Supreme Court to report in Edmonton on Monday next, for jury duty: Wm Kelly, A E Michael, George Oppertshausen, Muriel McKinlay, Capt. Gosset.

BUTTER AND EGGS WANTED at The Royal Cafe.

An Old-timer.

Mr A. Wylie, Jasper Park, was a visitor here overnight on Friday. He was on his way home with three pack horses purchased in Edmonton. Mr Wylie recounted the time he travelled thru this district some 40 years ago with cattle—about the time the Fitzpatricks arrived here, with whom he was well acquainted. Altho last season was a rather quiet one up at Jasper Park, Mr Wylie expects this season to be a record breaker.

Address on "Climate."

Last Saturday evening the students of the local High School were fortunate on being given the privilege of listening to a lecture delivered at the local United church by Mr M J Hilton, principal of the Technical School in Edmonton.

The subject of the address was "Climate," as it is over the world. The topic proved to be very interesting as well educational, and was enjoyed by those present.

Mr Hilton was accompanied by his sister. Both were the guests of the local Geography class at the Manse afterwards.

Duffield Doings.

A recent case of interest to our friends south of Duffield was heard at Tomahawk, when Edwin Wills was accused of stealing certain tools. Altho the goods were found in Wills' possession, the Crown failed to prove that there ever had been a theft within the meaning of the Criminal Code, and the case was dismissed. Geo J Bryan appeared for the defence.

Pea-green, with a Bottle-green Trimming.

The interior of the Royal Cafe has been thoroughly renovated and re-decorated. The main dining room has been retinted in charming colors. Special attention has been paid to the decorating of the Emerald Room, the walls of this being done in pea-green with a bottle-green trim, with miniature shamrock designs, the whole being set off by Nile green hangings in crozier pattern. Prop Larson is thinking of awarding a prize for the best name for this room.

Spruce Grove News

Mr and Mrs R N Sherwin motored to Fort Saskatchewan last Sunday, paying a visit with Mr and Mrs F M Baker.

Miss Florence Taylor of Edmonton spent a few days' holidays at the station house last week with Mr and Mrs R J Elder.

Mr and Mrs "Bert" Flesher were Sunday visitors with Mr and Mrs McLeod.

Mr and Mrs John Breithaupt were Sunday visitors with Mr and Mrs Joe Brox.

Miss M Bates visited at the Manse last Tuesday Eveg. May 9th, to discuss matters pertaining to Spruce Grove Y. P. S.

There was a good attendance of Grove residents at Winterburn hall last Friday Eveg., when Col Jamieson and A M Gibbs of Edmonton gave addresses.

Young Mr McKean was receiving congratulations Sunday, the 7th, it being the anniversary of his birth.

Elephant Brand Fertilizer in packages and bags, can now be had at the Spruce Grove Hardware.

Postal Tax Now Higher

Notice has been given that the postal revenue tax has been raised from 1c to 3c. In a short time new supplies of postal notes bearing the inscription "Revenue tax paid, 3c." will be issued. For the present, postmasters are to place an additional 2c stamp on each note in stock.

On 10c postal notes there will now be a charge of 3c, which is the amount of the new tax.

The charge on notes from 20c to 40c will be 4c, inclusive of 1c for commission; on notes from 50c to \$1.50 the charge will be 5c, including 2c for commission; on notes from \$2 to \$5 the charge is 6c—half of which is for commission.

Bus Time Table.

Stops at Royal Cafe.
To Edmonton, 10:50
To Onaway and Mayerthorpe—17:25.
To Evansburg and Wildwood—17:25

Not Hoggish—But Would Like a Little.

No use in telling us how tough things are—we know. Subscribers who can send in any amount they like to be applied on subscription arrears will help out in the present pinch. Most of you can do something towards reducing whatever amount you owe. It all helps!
